

Acheel Ayad
AYAD GROUP

Was established in 1970 and produces welded steel round, rectangular and square tubes. The factory is located in Tamoh, which was chosen strategically due to its facilitated access to local highways and transport links. In 2000, Ayad Group invested in and completed an extension to the factory to expand production to include a hot dip galvanizing plant producing galvanized steel tubes, angles and channels.

Alfa G
AYAD GROUP

Was established later on in the history of Ayad Group and was instigated by our commitment to constant innovation and responding to the needs of the Egyptian market. Alfa G is a pipe mill in 6th of October city and produces steel welded tubes of wider diameters, ranging from 1.5 inches to 8 inches and thicknesses ranging from 1.5mm to 4.5mm.

Square Hollow Sections

مواسير مربعة

Serial No. مسلسل	Size (mm) مقاس	Wall Thickness (mm) سمك			
1	18 x 18	1.2	1.5	1.8	2.0
2	20 x 20	1.2	1.5	1.8	2.0
3	25 x 25	1.2	1.5	1.8	2.0
4	30 x 30	1.2	1.5	1.8	2.0
5	40 x 40	1.5	2.0	2.5	3.0
