Subject: - Introduction for Steel Structure Design & Detailing.

DC Engineers are pleased to inform you that we are providing Structural Steel Design & Detailing Engineering Services from last 18 years to top most INDIAN Engineering Companies and Consultants.

We are working with our **International clients** with there given **standards** for Design and Detailing of Steel Structures such as **Buildings, Warehouse, Piperacks, Pipe bridge, Platforms, Equipment Support** and other which can be used for **Commercial, Industrial, Petro-Chemical** and any other purposes, we can also do different types of **Miscellaneous Steel** to compliment our main structures such as **Ladders, Staircases, Caged Ladders, Handrails and Grating, Decking, Checkered plates** and other types as long as it is steel structure. Our company is very flexible in providing the needs of our different clients.

INFRASTRUCTURE:

At DC Engineers, We take Pride in our state-of-art infrastructure that is Equipped with the Latest Software and Systems that lend weight to our work and credibility to our capabilities of handling high value Global Projects.

1. Detailing Packages

Tekla X-Steel Ver – 12: Structural Steel Modeling & Detailing Package
AutoCAD Ver – 2007: Structural Detailing & Drafting Package.

2. Structural Steel Design Package

Stead Pro 2006 : Structural Steel Design & Analysis Software.

3. Chemical Eqpt. Design Package

PVEite & AutoCAD: Pressure Vessel, Heat Exchanger, Storage Tank Design & Detailing Software.

Our Clients and some of our Erected Projects Detail:

Project	Location	Tonnage	Work
Rabigh Refinery & Petrochemical Co.	Saudi Arabia	1800	Detailing of Pipe Rack, Main Building & Support Structure
SAFCO Expansion Projects	Saudi Arabia	280	Detailing of Equipment Supported Platforms.
Ar-Razi Methanol	Saudi Arabia	2900	Detailing of Pipe Rack, Main Equipment structure including connection Design Verification.
Petro Rabigh	Saudi Arabia	1200	Connection Design & Detailing of Pipe Rack & Plant Building
Fujairah Cement Plant	UAE	600	Connection Design & Detailing of Transfer Tower & Plant Building
Naphtha Cracker Project Direct Fired Heater	INDIA	575	Detailing of Heaters and Supporting Platforms
ETHYLENE CRACKER COMPLEX (ECC)	SINGAPORE	400	Detailing of Heaters and Supporting Platforms
1100MW SUGEN CAPP.	INDIA	4500	Connection Design & Detailing of Entire Power Plant.
Commercial Building	USA	600	Detailing of Commercial Building.
Commercial Building	USA	400	Detailing of Commercial Building.
Steel BRIDGE	INDIA	800	Detailing of complete Bridge
Bharat Oman Refinery	INDIA	2500	Detailing of Pipe Rack, Main Building & Equipment Supported Platform

Our Delivery Standard:

DC Engineers has the ability to detail quickly and accurately, so we deliver project on time, every time, we have a good detailing team & Modelers & Checkers that work 6 day a week by constantly delivering accurate drawing of the highest quality, We are able to easily meet tight deadline.

With a Solid Commitment for a detailing accurate drawing of the highest quality, we are proud to say that we work with some of the largest and most demanding steel fabricator and detailing firm in the industries.

Best Regards,
