كينيتيك كتينغ سيستمز ح.م.ع

TEKA is an up-coming, modern company specialized in the field of suction and filtering. Technology and can be found among most important enterprises in Germany. We convince our customers with innovation and cost effectiveness as well as reliability and quality.

Especially in the metal-working industry, clean air at the workplace is a topic of vital importance. The GCC has limited the chromium fumes to 5 mg/ m³ and we are able to perform cleaning your air at the best and cheapest method in your facility.

TEKA is able to deliver the following applications.

- Suction Filtering for Fumes and Dust
- For Welding applications
- For Plasma & Gas Cutting solutions
- Shot-blast solutions & Blasting room solutions
- For Galvanik and Chromium Plants

We are replying to your specific requirement and we are able to work out a solution for your clean air. The advantage is that you are getting the planning and installation out of one hand and we design your project.

Either stationary or mobile, either welding fumes or other fumes of non metallic materials we have the ability to design your clean air system.

The easy use of our equipment and the self cleaning systems do not require much maintenance on your system.

Please call us for further consultations, questions and we will support your requirement in any case.
