

Cost saving and good quality being the motto of KANDI ENGINEERING, the production started in 1995 at MANOR (85 Kms from MUMBAI) for manufacture of industrial products related to Steel & Metallurgical Industry. An ISO 9001:2008 Certified Company has following product range:-

1. Refractory/ Ceramic Coated Oxygen Lancing Steel Pipes

used to inject gas into the submerged electric furnaces. The pipe provides a much longer life in the high-temperature furnace environment than previously used stainless-steel pipes. Using CCP to inject gas in submerged electric furnaces reduces costs and downtime for smelter production. Available in sizes 10NB to 40NB. Pipes are supplied globally to Germany, Australia, USA, Columbia, Taiwan, U.A.E., Israel, Thailand, and many more European countries. Indian customers include SHAH ALLOYS, Vardhaman Special Steels, Jindal Steel & Power, MUSCO, etc.

2. M.S. ERW Steel Pipes in sizes 6NB to 50NB for general usage in Non-ferrous & Steel plants, Construction & other industries.

3. Slide-gate System for pouring of liquid steel. Slide-gate technology has proved its worth in handling a large tonnage with minimum losses, the basic benefit of the mechanism. More than 70 steel plants have opted for SAFLOW system. KANDI Slide-gate system is easy to operate, and does not require any intricate, electrical or hydraulic mechanism. The high degree of reliability in the system makes it more adaptable for ladles up to 30 tonnes.

4. Burning / Thermic Lances for scrap, skull, non-ferrous cutting difficult-to-cut materials in gas cutting and metal cutting are conveniently cut by these lances. Metals, non-metals, ferrous & non-ferrous bodies can simply be quickly cut off without noise and vibration. It is also widely used for demolition of R.C.C. structures such as beams, slabs, columns, etc.

5. Powder coated Gas-line Pipes are being regularly supplied to prestigious Piped-gas Companies like MAHANAGAR GAS LTD. - MUMBAI, MAHARASHTRA NATURAL GAS LTD - PUNE, etc. as approved vendors. Gujarat Gas Ltd. & Bhagayanagar Gas Ltd. – Hyderabad are also welcomed customers.

KANDI ENGINEERING PVT. LTD.

F 301, Remi Biz court, Shah Industrial Estate, Off Veera Desai Road, Andheri West, Mumbai - 400 053, INDIA.

- ISO 9001 : 2008 Certified Organisation.
- Supplier of MS ERW Pipes from 6NB to 40 NB, length 5.5 mtr to 6 mtrs with or without threads.
- Nozzle filling compound / ladle filler sand for steel melting plants.
- Solicit Indian & Global enquiries and appointment of representatives.
- Manufacturers & Suppliers for more than 12 years to Steel Companies all over
