

Product offered - An Overview.

Precision Stainless Steel Strip

Condition	Annealed, 2B, BA, No. 3, No. 4, 2H	
Grades available	AISI 304, 304L, 316, 316L, 410S, 420, 430, 201, 202, 409/409L, 316 Ti, 321, 301. J1, J4 (Jindal Specs)	
Thickness	0.05 mm to 0.6 mm	
Width	For Annealed Material	
	Thickness	Width
	0.15 mm and above	430 mm max
	Below 0.15 mm	400 mm max
	For Tempered Material (FH/HH/QH)	
	Thickness	Width
	From 0.50 mm to 1.0 mm	Upto 700 mm
	From 0.15mm upto .0.50 mm	Upto 430 mm
	0.15 mm and below	Upto 400 mm
Tolerances:	Width and thickness tolerances to EN 10258 Closer tolerances can also be mutually agreed	
Mechanical properties :	ASTM A 240 : For strips supplied in annealed condition ASTM A 666 : For strips supplied in cold worked condition Special mechanical properties can be provided on specific request
