INTRODUCTION

SUMEC International Technology Co., Ltd, established in 1978, is subsidiary company of the SUMEC Group Corporation, which is a key member of the China National Machinery Industry Corporation (SINOMACH). The import and export volume of the company exceeded 27 billion US dollars in the past 30 years.

Since the establishment of company, SUMEC has held business operation in steel industry and kept this as the core business. After years' endeavor, SUMEC has been ranked at the top two amongst all steel exporting enterprises in Jiangsu Province and gained good reputation and credit in the field of international steel trade. At present, China has become the biggest Iron and Steel manufacturing country. Against this background SUMEC continues to develop core competencies and play an important role in the global steel market. We sincerely hope to have more chances to communicate and cooperate with you and achieve the win/win performance together.

Mission: Based on professional capability to integrate global resources and make human civilization shared.

Specialize in: HR Coil, HR Strip, HR Plate, CR Coil, CR Strip, GI and GI Strip, Prepainted Steel Products, Pipes and Tubes, I-Beam, H-Beam, U-Channel, Angle Steel, Flat Bar, Wire Rods, Stainless Steel.

THE WORLD WIDE COMMERCIAL PARTNERS

PRODUCTS

Hot Rolled Steel in Coils

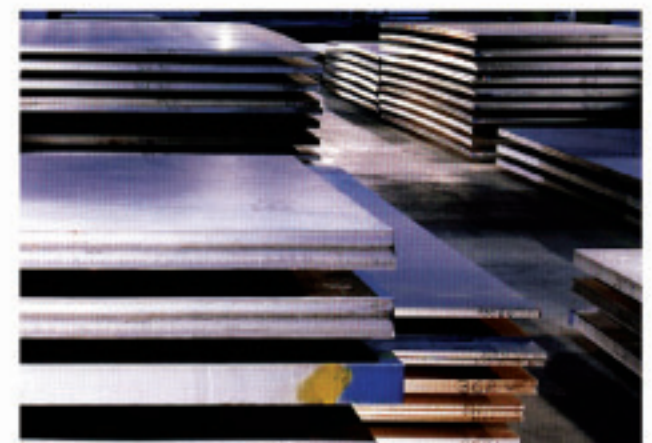

HR products are widely used in the petrochemicals, construction, shipbuilding, general engineering industries and producing the pipe and tube or for re-rolling.

Classification		Thickness (MM)	Width (MM)
Hot Rolled Steel in Coils	Commercial	1.5~5.0	1250~1500
	Tube Making (API)	3.0~24	1500~2000
	For Re-rolling	2.0 Or ABV	1050~1250
Hot Rolled Steel strips	Narrow Strip	1.5~6.0	145~520
	Wide Strip	3~12	500~735
	For Re-rolling	2~10	232~355/550~720

Hot Rolled Steel Plates

HR steel plates are widely exported to the tube manufacturer, metallurgical equipment manufacturer, CR and steel structure manufacturer, CR bending manufacturer.

Classification	Thickness (MM)	Width (MM)	Length(M)
Hot Rolled Steel Plates	8~650	1000~4020	6~13

Cold Rolled Steel in Coils

CR products are used in industries of automobile, household electrical appliances, buildings, light industry, etc. They can also be used as the raw materials for prepainted steel products.

Classification	Thickness (MM)	Width (MM)
Cold Rolled Steel in Strips	0.12~2.0	40~660
Cold Rolled Steel in Coils	0.4~3.0	1000~1250
Full-Hard Cold Rolled Coils	0.12~2.0	800~1200

Galvanized Steel Sheet In Coils (Plates)

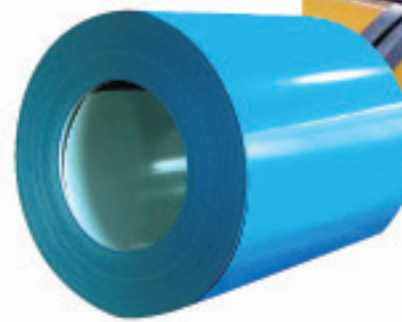

Galvanized Steel Sheets are widely used in various applications, including automobiles, machinery, construction and home appliances. They are also excellent for making metal furniture.

Classification	Thickness (MM)	Width (MM)
Galvanized Steel in Strips	0.2~1.5	30~900
Hot DIP Galvanized Steel Sheet In Coils (Plates)	0.25 Or ABV	1000~1540
Electrolytic Galvanized Steel Sheet In Coils (Plates)	0.6 Or ABV	900~1250

Prepainted Steel Products

Classification	Thickness (MM)	Width (MM)
Prepainted Steel Products	0.3~2.0	700~1250

Prepainted Steel Products are widely adopted among construction, home appliance, furniture and transportation industries.

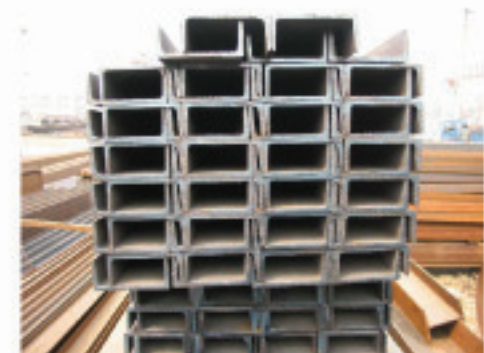

I-Beam

Classification	Height (MM)	Width (MM)	Thickness (MM)
I-Beam	100~630	68~180	4.5~17

U-Channel

Classification	Height (MM)	Width (MM)	Thickness (MM)
U-Channel	100~400	48~104	5.3~14.5

Angle steel

Classification	Width-L (MM)	Width-S (MM)	Thickness (MM)
Equal Angle Steel	30~250	----	4~24
Unequal Angle Steel	32~250	30~125	4~18

H-Beam

Classification	Height (MM)	Width (MM)	Thickness (MM)
H-Beam (W)	100~400	100~400	8~15
H-Beam (M)	150~600	100~300	9~23
H-Beam (N)	100~700	50~300	7~24

Flat Bar

Classification	Thickness (MM)	Width (MM)	Length(M)
Flat Bar	5~60	25~150	≤12000
Bulb Flat Steel	5~15	80~370	≤12000

Pipes and Tubes

The Pipes and Tubes products we exporting are produced by a wide range of domestic mills. The products are widely used in everything from oil and gas pipelines to general construction and manufacturing.

Specialize in: Seamless Steel Pipe, Boiler Tube, Pipe For Oil Field, Pressure Pipe, Seamless Steel Pipe For Geological Drill In, Galvanized Welded Pipe.

Round Steel

Classification	Φ (MM)
Round Steel (S)	10~80
Round Steel (B)	80~600

Main specifications are: Forging Φ80~600MM, 80~600MM square billet.

Wire Rods

Classification	Size (MM)
Low Carbon Steel W/R	5.5~24
high Carbon Steel W/R	5.5~13
Pre-stressed Concrete Bar	7.1, 9.0, 10.0

What's more, SUMEC orders the stainless steel products directly from the mills. Various product types, such as coils and plates, can be supplied according to the customers' needs.

QUALITY SYSTEM CERTIFICATE
